## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jen Jenkins on 02/02/05.

2. The application has been amended as follows:

Claims 3 and 21 have been cancelled.

**Claim 1 (Currently Amended).** In a system that receives content either directly from a source or through a proxy server, a method for displaying the content to a user if the content has been resized such that some of the content is rendered less viewable to a user than content that has not been resized, the method comprising:

selecting a portion of the resized content that is displayed to the user in the user interface; enlarging the selected portion of the resized content without enlarging other portions of the resized content, wherein enlarging the selected portion of the resized content comprises enlarging the selected portion of the resized content only if the selected portion of the resized content is smaller than a predetermined size; and

displaying the enlarged portion of the resized content to the user in the user interface, wherein the remaining resized content is not affected by displaying the enlarged portion of the content.

**Claim 19 (Currently Amended)** In a system that receives content either directly from a source or through a proxy server, a computer program product for implementing a method for displaying the content to a user if the content has been resized such that some of the content is rendered less legible when the content is resized, the computer program product comprising:

a computer readable medium having computer executable instructions for performing the method, the method comprising selecting a portion of the resized content that is displayed to the user in the user interface; enlarging the selected portion of the resized content without enlarging other portions of the resized content, wherein enlarging the selected portion of the resized content comprises enlarging the selected portion of the resized content only if the selected portion of the resized content is smaller than a predetermined size; and displaying the enlarged portion of the resized content to the user in the user interface, wherein the remaining resized content is not affected by displaying the enlarged portion of the content.

***Allowable Subject Matter***

1. Claims 1-2, 4-20 and 22-29 are allowed over the prior art.

The following is a statement of reasons for the indication of allowable subject matter: Applicant has claimed uniquely distinct features in a system that receives content either directly from a source or through a proxy server, a method for displaying the content to a user if the content has been resized such that some of the content is rendered less viewable to a user than content that has not been resized, the method comprising:

selecting a portion of the resized content that is displayed to the user in the user interface; enlarging the selected portion of the resized content without enlarging other portions of the size content, wherein enlarging the selected portion of the resized content comprises enlarging the selected portion of the resized content only if the selected portion of the resized content is smaller than a predetermined size; and displaying the enlarged portion of the resized content to the user in the user interface, wherein the remaining resized content is not affected by displaying the enlarged portion of the content. These features are not found or suggested in the prior art.

The present invention is directed to selecting a portion of the resized content that is displayed to the user in the user interface; enlarging the selected portion of the resized content without enlarging other portions of the size content, wherein enlarging the selected portion of the resized content comprises enlarging the selected portion of the resized content only if the selected portion of the resized content is smaller than a predetermined size; and displaying the enlarged portion of the resized content to the user in the user interface, wherein the remaining resized content is not affected by displaying the enlarged portion of the content. Each independent claim is identified “enlarging the selected portion of the resized content without enlarging other portions of the size content, wherein enlarging the selected portion of the resized content comprises enlarging the selected portion of the resized content only if the selected portion of the resized content is smaller than a predetermined size; and displaying the enlarged portion of the resized content to the user in the user interface, wherein the remaining resized content is not affected by displaying the enlarged portion of the content.” The closest

prior art of Wong et al. and Ludolph et al. discloses a conventional step of enlarging the selected window panel involves determining the smaller of either the desired expansion size or the maximum permissible expansion size of the selected window, and then enlarging the selected window panel to the smaller of the two.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. (see PTO-892).
